

FORESTDALE FIRE DISTRICT

Monthly Operations Report

TURN YOUR ATTENTION TO FIRE PREVENTION

Board of Trustees

February 23, 2015

Forestdale Fire District
751 Heflin Ave. East
Birmingham, Al. 35214

Dear Ladies and Gentlemen,

I want to make the trustees aware that ISO will be here to re-grade the department in April of this year. We are currently reviewing our records, equipment and water system based on the ISO requirements.

I have two needs:

1. An increase in the hydrant installation budget from \$3,900 to \$7,000, this is due to installation increases by all three water system companies. I had planned on installing one hydrant this year and received the installation price of around \$6,850. I would like to have this plug in or at least ordered before ISO arrives. (Debra please look into the budget and see if this increase would create any issues)
2. Time, please understand I have a lot on my plate and I may not have a committee recommendation on station one's fate. I will still try to have the recommendation by March but my main concern is ISO.

Thanks for your support and understanding,

Fire Chief
